Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 1-3, 6-12 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Gao in view of Czollner of record for reasons of record.

Response to Arguments

Applicant's arguments filed 4/3/07 have been fully considered but they are not persuasive.

Applicants argue that applicants have discovered an unexpected result obtained by the use of toluene to separate the organic material from the aqueous solution.

The Czollner patent teaches the conventional use of toluene to separate out organic material by the use of toluene to obtain the aqueous solution containing the ferrocyanide. The reference further discloses the benefits obtained by the use of toluene as the solvent to extract the organic material (see col. 3, lines 7-40).

Therefore, the invention as a whole would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the

Art Unit: 1753

disclosure of the Gao patent which discloses the electrolytic regeneration of an aqueous ferricyanide with the teachings of the Czollner patent, because the Czollner patent teaches the improvements obtained in the removal of the organic material by toluene from the aqueous ferrocyanide containing solution.

Furthermore, it has been well settled that the fact that applicant has recognized another advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. See *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985).

Accordingly, the claims stand rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the

advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
